Dear Public Service Commission

South Carolina confronts a crisis that threatens the energy security of our citizens, as well as the health of our state's economy. I believe South Carolina has a clear way to avoid crisis and ensure that our state's electric and gas customers have excellent service and affordable pricing in the future. That solution is the proposed combination of Dominion Energy and SCANA. It will end the uncertainty that poses a threat to our economic growth.

Dominion Energy's proposal includes immediate and long term relief in the form of \$1.3 billion in cash payments to homes, businesses, churches, schools, local governments and other customers served by SCE&G.

Customers would also see an immediate electric rate reduction of at least 7 percent. Dominion Energy would absorb more than \$1.7 billion of the remaining V.C. Summer debt and reduce the current timeframe for cost recovery by forty years. This is the best proposal and path forward for South Carolina.

Thank you for the opportunity to share my support.

Dear Public Services Commission:

As a resident of South Carolina, consumer, rate payer and someone who has helped pay for the failed nuclear plant V.C. Summer, I want a permanent fix and not a temporary solution.

Dominion Energy is offering a solution and a plan that makes long term sense. They plan to refund about 70% of what customers have already paid in to the abandoned project. Then they will guarantee a rate reduction. Additionally, Dominion will absorb \$1.7 billion dollars in costs the public hasn't yet seen and reduce the length of the debt.

We all want to move forward from this. Let's do this with a strong energy partner who is willing to share some of the costs with the people of South Carolina. Supporting the merger between SCANA and Dominion Energy will get us there.

Sincerely,

Betty G. Davis
